

KinderTEK

KinderTEK Pro Web Dashboard Home play: Connecting families

To connect a family to a student, click on Parents in the left sidebar of your Class Page. In order to connect a family to a student in KinderTEK, they must have a working email address.

- Click on Create a New Parent to the top right of the Parents box.
- Enter the family information. (Phone number is optional and should be entered without dashes.) Then use the student drop-down to select the student from your class list.
- Select the blue Create Parent button.

You will see a yellow banner at the top of the page indicating that the family login has been created and attached to the student. The family will receive an email asking them to complete their account set-up.

Test School District / Test School Kinder / Terrific Teacher		
2020-21		
Parents		
Name	Email	Student(s)
Amy Ant	parent@test.com	Awesome Ant
Carlo Caterpillar	parent@parent.com	Beautiful Butterfly , Curious Caterpillar
George Curious	curiousg@k.com	Merry Monkey

To edit family information or to assign an additional student from your class to the same family login, simply click on the Edit icon to the right of the family name.

You also have the option of adding family information to the Bulk Upload feature when adding students to your class. To use this feature, follow the bulk upload instructions for adding family information when creating your student roster.
